The titles listed reflect only a small portion of Mark Hopkins' sold out or retired sculptures. A sculpture is "sold out" when the entire edition of that piece has been purchased from Mark Hopkins Sculpture. A "retired" sculpture is one that is taken out of active production and is no longer available from Mark Hopkins Sculpture. The listed "after market high" reflects the highest price paid for a piece or the value given to it from a legitimate art appraiser or auctioneer. These values have been reported by authorized Mark Hopkins' dealer or collectors and can be verified by documentation. The "estimated current production price" is the projected price if the sculpture was currently available and in active production. Due to an increase in production costs and materials, especially raw bronze, Mark Hopkins' sculptures have recently increased in value and are expected to continue to do so. However, please note that these prices do not reflect what the buying market is necessarily willing to pay. If a title is not listed that you would like an estimated value for, please contact us.
